

Beatrice wind farm off the coast of Caithness – Scotland's largest offshore wind farm

SSE GREEN ELECTRICITY

RENEWABLE ELECTRICITY FOR YOUR BUSINESS

Grow your business with affordable
100% renewable energy straight from
our UK wind farms.¹

As customers increasingly demand action on climate change, it's important to cut your carbon footprint and show you're committed to sustainability, whatever the size of your business. But it shouldn't cost you the earth. Choose SSE Green Electricity and you could pay just £6 a year more than on a standard SSE electricity contract.²

All our renewable electricity comes from SSE's own UK wind and hydro assets, so you can be sure it's genuinely renewable. And you'll be supporting future renewable energy generation in the UK: we're investing all we can back into wind farms for a better world of energy.

WHY SSE GREEN ELECTRICITY?

- Affordable green energy at just £6 extra a year for a small business.²
- Reduce your carbon footprint with renewable electricity from SSE's UK wind and hydro assets.¹
- Show your commitment to sustainability with SSE Green Electricity logo and certificates.
- Certified 100% renewable backed by Renewable Energy Guarantees of Origin (REGOs).
- Easy to report zero carbon emissions for electricity with independent verification by EcoAct, an Atos company.

SSE Green Gas
is also available

For a better
world of energy

Our 100% renewable electricity is an affordable way to reduce your carbon footprint and show customers you're serious about the environment.

All our renewable electricity is backed by Renewable Energy Guarantees of Origin (REGOs). One REGO is issued for each megawatt hour of renewable power generated, so you can be sure it's from a genuine renewable source.

Not all green energy is equal

We're different because all our renewable electricity comes from SSE's own wind and hydro assets.¹ As the largest renewable electricity generator in the UK and Ireland, the SSE Group is planning to treble its renewable electricity output to 30TWh by 2030 to help the UK transition to a net zero economy.

Sign up for SSE Green Electricity and you'll be supporting future UK wind generation – clean energy for us and our children's generation.

Show you're serious about sustainability

Customers and stakeholders are increasingly concerned about climate change and the environment. With SSE Green Electricity, you'll get a specially designed certificate and logo to demonstrate your commitment to sustainability.

Easy to report zero carbon emissions

If you're a larger energy user, you may have to report your carbon emissions under the Greenhouse Gas Protocol. SSE Green Electricity comes with independent verification by EcoAct, so it's easy to report zero carbon for Scope 2 emissions.

SSE Green Electricity – easy, affordable green energy to grow your business more sustainably.

BUILDING SCOTLAND'S LARGEST OFFSHORE WIND FARM

SSE is currently working with Total to build the Seagreen offshore wind farm off the coast of Scotland, destined to supply 1.6 million UK homes with clean, renewable electricity.

When completed in 2022/23, Seagreen will inherit the title of Scotland's largest wind farm from the Beatrice offshore wind farm.

WE'RE BUILDING TOWARDS NET ZERO

1: All our renewable electricity is sourced from wind and hydro assets wholly or partly owned by SSE Renewables, our sister company in the SSE Group. With SSE Green Electricity, you'll continue to get your electricity through the national grid as normal, and we'll match your consumption to REGOs from SSE Group's generating assets. 2: Compared with a standard unit price based on a small business using an average of 6,000kWh of SSE Green Electricity a year at a rate of 0.1p/kWh: 6,000 x 0.1p = £6 per year.

All SSE Energy Solutions products are offered in accordance with our applicable Terms and Conditions and subject to availability.

SSE Energy Solutions is a trading name of SSE Energy Supply Limited, registered in England and Wales number 03757502, which is a member of the SSE Group. The registered office of SSE Energy Supply Limited is No. 1 Forbury Place, 43 Forbury Road, Reading, RG1 3JH.
